Everything from Harrods

FEBRUARY 2003

Harrods
KNIGHTSBRIDGE

california dreaming

The largest independent importer of new vehicles from the US to the UK invites you to sample the Great American Dream... in downtown Knightsbridge!

Americans like things big. Big food, big houses, big cars. Now Harrods would like to let you in on a big secret.

American Car Imports specialises in importing top-of-the-range vehicles from the US, offering the UK buyer exclusivity and excellent value. Based in Wood Green in North London, they have a comprehensive range of new and used vehicles in stock for you to view.

If you've always hankered to drive around London in a sporty new Mustang Cobra with 390bhp, a Viper or even a Corvette, your dream could become part of your daily life. A stately Cadillac Escalade or Lincoln Navigator? The new Hummer H2 or another luxury pick-up truck? American Car Imports offers a fantastic alternative to the conventional sport utility vehicles offered in Europe.

Currently one of the company's most popular vehicles is the supercharged Harley Davidson edition of the Ford F150 pick-up. With 340bhp on tap and four individual leather captain's chairs,

this incredible machine is VAT reclaimable and can offer other significant tax benefits.

As well as providing normal dealer services, such as finance, parts and servicing, ACI has a something extra up its sleeve. An exclusive arrangement with the AA Warranty Services gives drivers unlimited mileage cover for up to three years, ensuring that your 'American Dream' is protected.

 **AMERICAN CAR IMPORTS**
SPECIALISTS IN THE SOURCING, SHIPPING AND IMPORTING OF AMERICAN VEHICLES

In collaboration with Harrods, ACI is displaying the new Hummer H2 in the Harrods front window from 17th to 22nd February. See it for yourself or phone American Car Imports on 020 8889 4545 for more information. Alternatively, visit their website at www.americancarimports.com
